### *Request for information*

Deirdre Beyer-Honca, Ph.D. candidate in Classical Archaeology and Anthropology, Indiana University, requests the following: anyone who has any information --field notes, sketches, photos--pertaining to Çatal Hüyük's Neolithic burials is requested to send word either to *Nestor* or to: Deirdre Beyer-Honca, 129 Perkins Street #2, Somerville, MA 02145, U.S.A. I have had trouble obtaining this information, which I need for a thesis involving Çatal Hüyük human bone material, via official channels. Now I am curious whether anyone who has worked at Çatal Hüyük during or after the excavations may have their own notes and be willing to share them. I particularly need information on burial stratigraphy--which graves were found in or outside of which buildings in which levels.
