COMMUNICATIONS

From the Editors

The editors of *NESTOR* would like to wish everyone a Happy 1998. To begin the new year, we are adding two new features to *NESTOR*: an **Addenda** section and a **Dissertations in Progress** section. The former will include publications overlooked in previous issues of *NESTOR*. This section will be limited to approximately two pages or less per issue, and the publications listed here will be added to the Web site subsequently. To facilitate this process, we ask that *NESTOR* subscribers send us notification of previous publications which have not been listed in previous issues of *NESTOR*. In order to verify that the item(s) are actually missing, please double-check the *NESTOR* database (<http://ucaswww.mcm.uc.edu/classics/nesstor/nesstor.html>) as well as the paper issues of the past year for items published in 1997. For overlooked items, please send us photocopies of the title page(s) on which all publication information appears (including publisher, place of publication, date of publication, and series title with volume number, if applicable) as well as the table of contents from the book/journal. In addition, please photocopy the first and last pages of journal articles or contributions to collections.

For the **Dissertations in Progress** section, we ask that readers send us notification of appropriate dissertations in progress. Please send (via post or e-mail) the working title of the dissertation and the university/program for which it is being written. We also ask for notification of dissertations which have been completed. Please send a photocopy of the title page and the UMI number if it is available. All completed dissertations will be listed in the **Bibliography** section below.
