**Information on Imports in the LBA Aegean:** Eric H. Cline, former editor of *Nestor*, would like to announce that he is beginning work on an updated and revised version of his book, *Sailing the Wine-Dark Sea: International Trade and the Late Bronze Age Aegean*, which has been out of print for nearly a decade. If anyone is aware of published (repeat, published) imports found in LBA contexts within the Aegean area which were either not included or misidentified in his original volume, or which have been discovered or published since the volume appeared in 1994, he would greatly appreciate being contacted with any information. He would also be interested in any references to books or articles which discuss such imports or LBA trade that have appeared since 1994 or which were omitted in his original book. Full credit and acknowledgements will be given for any assistance received, even for references to objects and publications of which he is already aware. He can be reached via email at [ehcline@gwu.edu](mailto:ehcline@gwu.edu) or via regular post at the Department of Classical and Semitic Languages and Literatures, The George Washington University, 345 Phillips Hall, 801 22nd St. NW, Washington, D.C. 20052.
