Calls for Papers

On 15 November 2004 abstracts (ca. 300 words) are due for a conference entitled **Seeing the Past: Building knowledge of the past and present through acts of seeing**, to be hosted by the Archaeology Center at Stanford University on 5-6 February 2005. Paper presentations will be limited to 5-10 minute 'provocative statements' intended to stimulate discussion; the papers will have been pre-circulated and posted on the conference web-site, and will subsequently be published in Stanford's *Archaeology Journal*. The first major objective will be to explore how different media present different pasts in the present, including (but not limited to) such topics as GIS and Digital rendering of sites and monuments, visual modeling, the commercialization and packaging of the past, the past through photography or other media, how modern sites are used (i.e. heritage and tourism), and how the past is represented in museums; the second major objective will be to explore how past peoples used visual culture to understand their past and present, including (but not limited to) such topics as temporal and spatial development of settlements and cemeteries, rock art, textual and artistic representations, monumentality, spatial re-use, ritualized architecture, and landscape studies. The conference seeks to enable productive dialogue across a range of disciplines including anthropological sciences, architecture, art and design history, classics, cultural and social anthropology, biology, cultural studies, education, film studies, dramatic and performance studies, fine art, geography, geology and earth sciences, history, literary studies, museum studies, photography, psychology, sociology, and visual culture. Abstracts should be sent to Stanford Archaeological Center, Stanford University, Building 60, Main Quad, Stanford, CA 94305-2170, or by e-mail to seeingthepast@yahoo.com.

Electronic News and Notices

The website entitled Paléomed, at <http://geophiles.net/paleomed/index.htm> has papers and information about the geoarchaeology and paleoclimatology of the Lower Acheron River Valley,

Lake Gramousti, and the Rezina Marsh in Epirus, Lake Kournas on Crete, Delos and Mykonos, and Potamia and Gialias on Cyprus.

The Central Anatolian Neolithic e-Workshop Project (CANeW) has announced a change in their URL from <http://canew.net> to <http://www.canew.org>. Of particular interest to *Nestor* readers is an expanded C¹⁴ database covering the Aegean region, including Eastern Greece, the Former Yugoslav Republic of Macedonia, Bulgaria, and Western Turkey, with a timespan between 10,000 and 5,500 cal BC. This database is intended to contribute to discussions of neolithization and of the interaction between Anatolia and Southeast Europe. All C¹⁴ tables, both Aegean and the Anatolian, have been expanded to include an extra column providing the cal BC 1 sigma ranges, allowing quick monitoring of the ages and life-spans of the sites.
